2. Next step tacks fabric/fleece down.

3. Remove hoop & flip over. Trim the stabilizer from inside the outline.

4. With hoop still on back side, center interfaced fabric over outline. Tape in place, put hoop on machine.

5. Next step tacks fabric under hoop down.

6. Remove hoop, trim fabric/fleece close to outline on both sides of hoop. Put hoop back on machine.

7. Next step - stitches the satin edge of wrap.

8. Finish stitching embroidery design on front following instructions in text files provided with designs.
