

## 2 hoop - Bow-Tie Candle Wraps

by Sherry Titzer

<http://www.atimetostitch.com>

Instructions are for the Bow Tie Candle wraps made in 2 hoopings. See "Adding ribbon to Bow-tie Wrap" PDF also!  
These candle wraps will fit any 20-22 oz Jar candle (12 ¼" – 12 ½" jar circumference)

**NOTE!! MAKE THE BACK WRAP PIECES FIRST!**  
1. Hoop vilene wash away stabilizer. 1<sup>st</sup> step stitches outline on stabilizer only, no fabric yet.

2. Center fabric with fleece fused to wrong side over the outline. Tape at corners, put hoop on machine.

3. 2<sup>nd</sup> color in design tacks fabric/fleece down. (Outline will make 2 passes)

4. Remove hoop & flip over. Trim the wash away stabilizer away from the inside of both shapes.

5. With hoop still on back side, center interfaced fabric over outline. Tape at corners, put hoop on machine.

6. Next step tacks the fabric under the hoop down and stitches the buttonholes on each end.

7. Next step stitches satin edge on both pieces. Continue stitching design using instructions in text files.

8. Remove hoop & trim from stabilizer. Do NOT wet to remove stabilizer bits from the edges yet! Set aside.

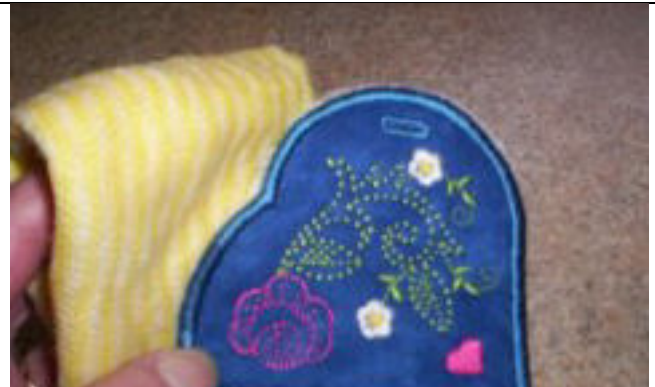

9. Now....make front wrap piece following same steps above but keep wrap hooped when finished!

10. Tape back pieces to each end with sides touching, even along the bottom. Put hoop on machine.

11. Last step joins back wrap pieces to front with a wide zig-zag stitch on each end.

12. Trim wrap from stabilizer. Now, run warm wet rag along edge to dissolve any remaining stabilizer.

13. Thread ribbon through buttonholes and tie in bow. (See "Adding ribbon to Bow-tie wrap" PDF for help!)

14. Here is your finished candle set!
