

## NOTEPAD HOLDERS - SATIN EDGE

By Sherry Titzer - <http://www.atimetostitch.com>

**Supplies:**

Vilene or Aqua Magic - to fit your hoop

Magnet - Business card size 2" x 3 1/2"

Rubber Cement - to glue the magnet on the back

Eazy Felt (5x7 hoops - 1 piece 5"W x 7 1/2"H) (5x8+ hoops - 1 piece 5"W x 8 1/2"H)

Fabric Notepad Holder - cut 2 pieces the same size as the Eazy felt (according to your hoop size)

Fabric for Pocket - (5x7 hoops - 1 pc 4" x 5 1/2") (5x8+ hoop - 1 pc 5" x 5 1/2")

Add "iron on" interfacing to wrong side of pocket fabric. Fold down 1/2" on the 4" edges (5x7 hoop) or 5" edges (5x8+ hoop) at the top & the bottom.

5x7 hoops: Finished pocket size - 3"H x 5 1/2"W (5x8+ hoops: Finished pocket size - 4"H x 5 1/2"W)

Top stitch the folded edges on your sewing machine.

1. Cut your eazy felt and fabric – refer to the supplies list for sizes.

2. Add "iron on" interfacing to wrong side of pocket fabric. Turn down 1/2" on the 2 longer sides & top stitch.

3. This picture shows the pocket with the fabric turned and top stitched on the wrong side.

4. This picture shows the pocket on the right side, top stitched and ready to use.

5. Hoop washaway stabilizer in your hoop and stitch the first color on the vilene/aqua magic only (no fabric yet)

6. Remove hoop & turn to back side. Place one piece of the fabric centered over outline. Use adhesive spray to keep in place.

7. Flip the hoop to the right side. Place 1 piece of Eazy felt with 1 piece of fabric on top centered over outline. Use adhesive spray to keep in place. The next color in the design tacks the fabric & felt down and stitches placement lines for pocket placement.

8. Line the pocket fabric up with the top placement line. Scotch tape the 5 1/2" wide pocket fabric to the design. Keep it even with the existing 5" wide fabric on both sides. The fabric will bow up in the middle (the extra fabric will form the pencil slot later)

9. The next color stop tacks the pocket fabric down (There is no picture for this step!)

10. After the pocket fabric is tacked down, the next color stop stitches the vertical line to form the pen pocket. Push the fabric over to the right side while it stitches the vertical line to keep the fabric on the right side.

11. This picture shows the finished pen pocket.

12. Remove hoop and trim the fabric and eazy felt from around the design on both sides of the hoop.  
Tip: It is easier to trim the fabric alone first and then trim the felt rather than trying to trim both at the same time.

13. Place hoop back on machine. The next color stop stitches the final satin outline around the design. Hold the pen pocket to the left out of the way as it first begins stitching the satin outline.

14. This illustrates the satin outline being stitched around the notepad holder.

15. Stitch the design at the top following the instructions in the text file included with the design.

16. When finished stitching the design, remove hoop and flip over. Trim the notepad holder from the stabilizer. Run a warm wet rag along the edges to dissolve the remaining stabilizer.

17. Use rubber cement to glue a business size magnet to the back side at the top centered.

18. Place a 3x5 notepad and a pen in the pockets and you're finished!
