

RECIPE HOLDERS - ALL FELT

Sherry Titzer - <http://www.atimetostitch.com>

Supplies:

Pellon Stitch 'n Tear stabilizer to fit your hoop

Eazy Felt (felt that has been stiffened) - 4 pieces 4 1/2" x 6 1/2" (to make 1 recipe holder)

Single hole paper punch (1/4" hole) - to punch the holes in the top of the finished design.

3 Hole punch - to punch the holes in the 4x6 index cards. Tape a 3/8" wide popsicle stick inside the left edge of the 3 hole punch so that it keeps the card that distance from the edge so the holes are perfectly centered at the top of the index cards.

4"x 6" Index cards (ruled)

Two 1" inch metal rings (per recipe holder)

1. Hoop Pellon Stitch 'n Tear in hoop and stitch first color in the design on stabilizer only (the outline)

2. Place one piece of Eazy felt "inside" the outline centered.

3. Next color in design tacks the felt down.

4. Stitch the rest of the design on the front.

5. Remove hoop, flip to wrong side. Center 2nd piece of felt over outline. Spray with adhesive spray to secure.

6. Last color in design tacks the back piece of felt down!

7. Remove from hoop. With a straight ruler and rotary cutter trim the excess fabric from the outer edges. Trim 1/8" from the edge of the outline.

8. Punch 2 holes at the top with a single hole paper punch. Make sure the hole punch is centered so you do not cut into the satin stitched outline of the holes!

9. Tape a 3/8" wide popsicle stick to the inside edge of a 3 hole paper punch to punch holes in the index cards. The popsicle stick holds the index cards at out the right distance so the holes are perfectly centered at the top!

10. Sandwich the index cards in between the front and back of the recipe holder and add the 1" rings at the top and you're finished!

Supplies to make the recipe holders: You can find the first four items at any office supply store. This what I used and the price for each item to give you an idea of the cost involved. You can order the 1" rings and index cards online at www.staples.com or www.officedepot.com in bulk cheaper if you are planning to make quite a few of the recipe holders.
