

# TISSUE CASES

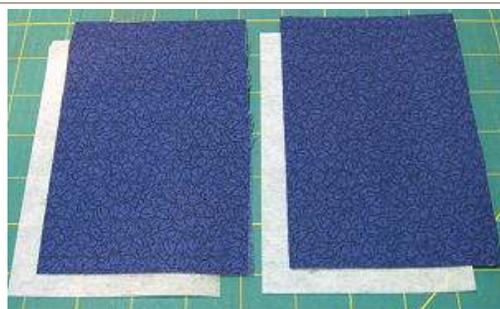

by Sherry Titzer – <http://www.atimetostitch.com>

## Supplies:

Tear away stabilizer to fit your hoop (I used Pellon Stitch 'n Tear)

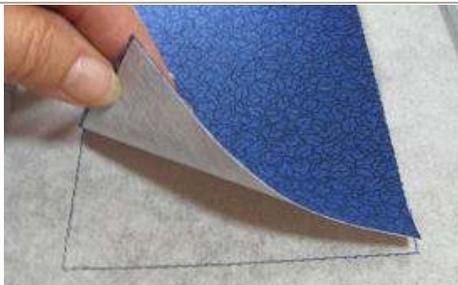

Vilene or Aqua Magic wash away stabilizer

2 pieces of fabric & 2 pieces of medium weight iron-on interfacing cut to 4" x 6"

1. Hoop tear away stabilizer to fit your hoop. The first outline is sewn on the stabilizer only (no fabric yet)

2. Cut 2 pieces of fabric 4" x 6" and 2 pieces of interfacing (same size), iron to the wrong side of fabric.

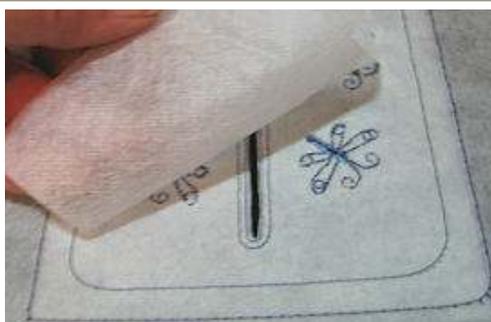

3. Place prepared fabric centered over outline.

4. The next color in the design tacks the fabric down and sews the outlines for the tissue case opening.

5. Next, stitch the embroidery design according to the instructions in the text file provided.

6. Remove hoop and trim the fabric and stabilizer from inside the narrow opening.

7. Flip hoop over on back side and tape a strip of vilene wash away stabilizer 2" wide over the narrow opening. Place hoop back on machine.

8. The next color in the design stitches the satin border around the opening covering the raw edges of the fabric.

9. Place the 2nd piece of fabric centered over the outline with right sides of fabric facing each other.

10. The last color in the design tacks the 2nd piece of fabric down. (The outline will stitch twice)

11. Remove hoop and flip to back side. Trim away the excess wash away stabilizer.

12. Use pinking shears to trim the fabric around the case.

13. Cut a slit through the opening through the wash away stabilizer. Turn the design inside out through opening.

14. Run a warm wet rag along the edge dissolve the remaining wash away stabilizer. Let dry.

Here is the finished tissue case with tissues inside! These are very easy to make!! Note: Did you notice the little circles stitched inside the flower centers & dragonfly wings? They were digitized with the little circles to add swarovski crystals for a little extra glitz! Of course the design looks just fine without them, it's totally up to you!

Go to [www.designbydawn.com](http://www.designbydawn.com) to order swarovski crystals.
