

Wine Glass Tags

by Sherry Titzer

<http://www.atimetostitch.com>

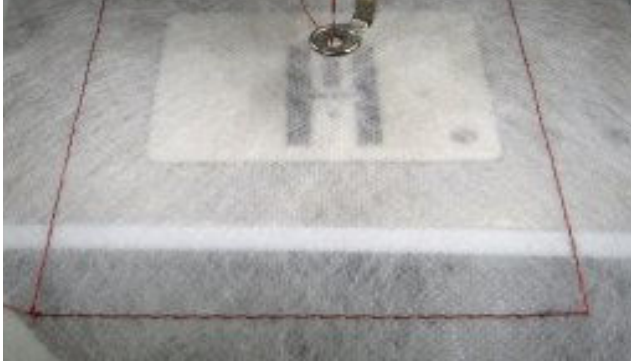

More detailed instructions included with orders. This just provides the general construction of the glass tags.

SUPPLIES:

Cotton fabric (or faux leather look fabric for top & cotton fabric for back)

Small piece of cut away stabilizer (to give it more body)

3/8" Button snaps - Order snaps from www.snapsource.com

1. Hoop wash away stabilizer and stitch placement outline on stabilizer only.

2. Remove hoop. Center cut away stabilizer inside outline, then center fabric on top. Tape corners, put hoop on machine.

3. Next steps stitches outline to tack fabric down. Stitch rest of design following instructions in text files provided.

4. When design finished, remove hoop & flip over. Center fabric (right side up) inside outline. Tape at corners, put hoop on machine.

5. Next step tacks the back fabric down with a double run outline.

6. Remove hoop. Trim fabric & cut away stabilizer close to outline on both sides of hoop. Put hoop on machine.

7. The last step does the satin stitching around the edge to cover raw edge of fabric. (Use bobbin thread to match top thread for this step)

8. Trim tag from stabilizer being careful to avoid cutting into the satin stitches. Rub warm wet rag on edge to dissolve any remaining stabilizer. Install button snap as shown above.

Finished glass tags!
